

# What is Speed in KakaBot

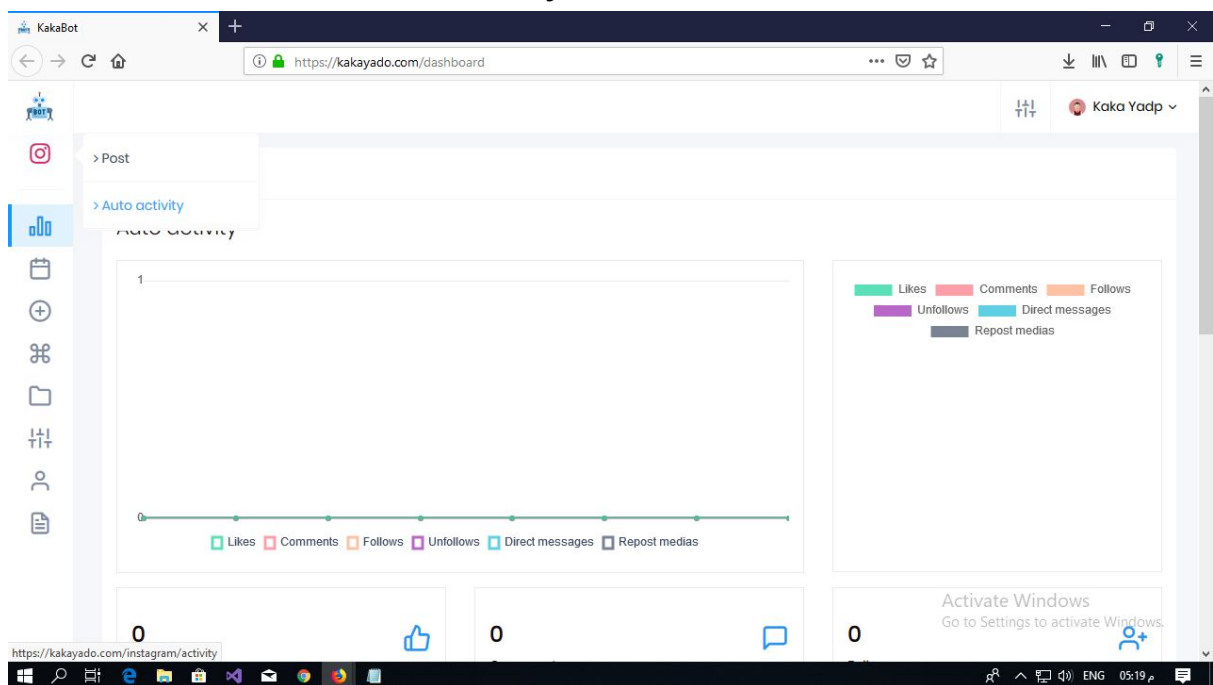

**Speed** is how Fast the bot do specific job, For example speed of follow is 20/H That mean The bot going to follow 20 accounts per hour. Same things is for like,unfollow and other actions

We always recommend to Put speed on Normal so Your account wont get banned by instagram, But you can Change it to custom and setup your own settings

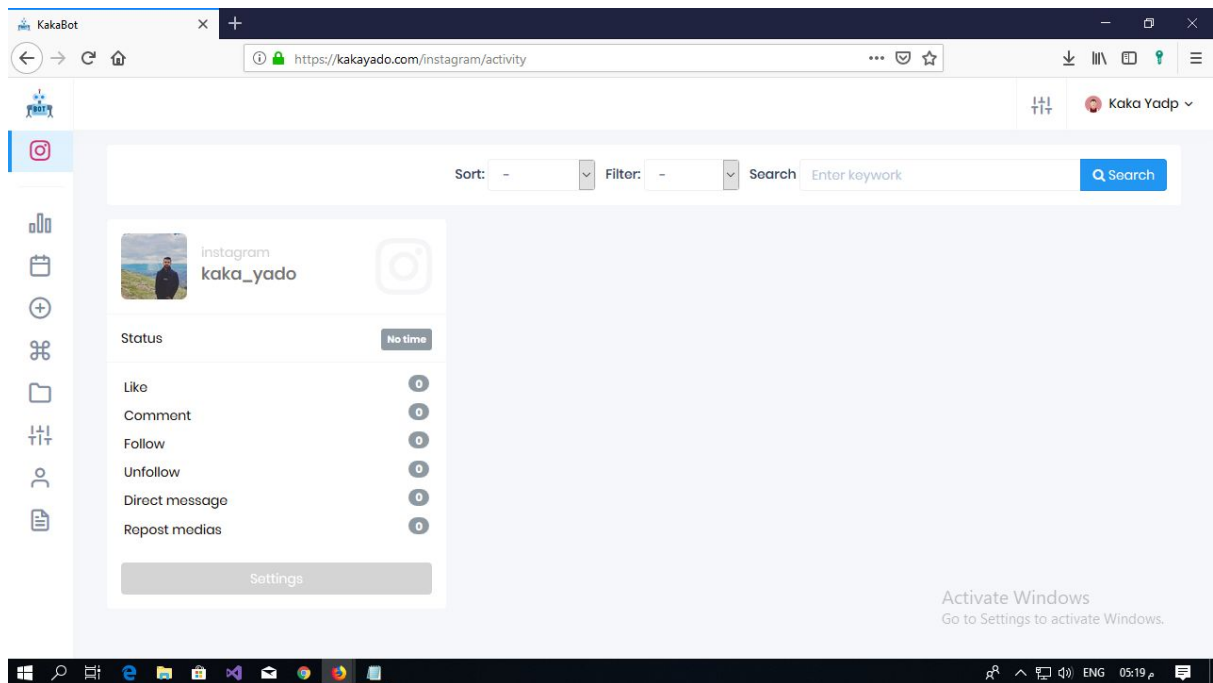

- Max Like Per Hour: **60**
- Max Comment Per Hour: **20**
- Max Follow Per Hour: **40**
- Max Unfollow Per Hour: **40**
- Max DM Per Hour: **20**
- Max Repost Per Hour: **60**

## How It Works

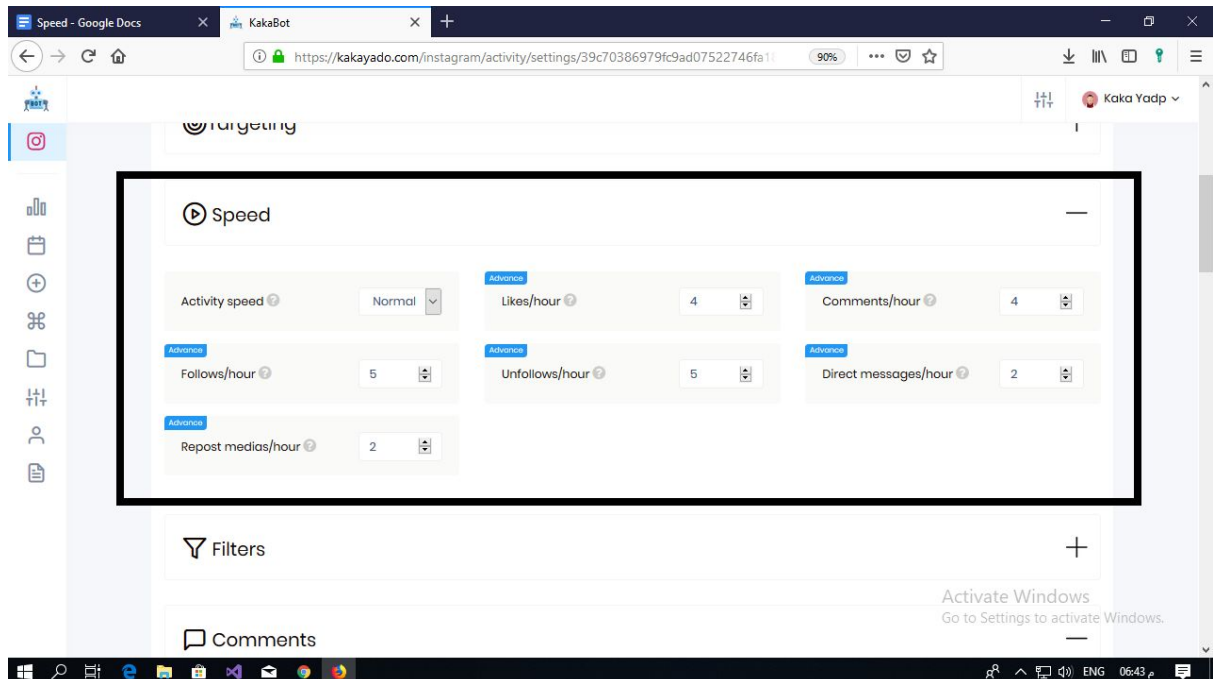

### 1. In Dashboard Go to Auto Activity

## 2. Click On Settings

## 3. Scroll Down to Speed Section

## 4. You Can setup your own settings by Changing The Numbers
